Product description

Effer cable reel
 Bad connections and interrupted electrical signals are amongst the most challenging faults to locate on any machine. Ensuring that these connections are maintained during the operation of the machine helps to keep the machine running. The EFFER range of harnesses is specifically designed and the cables and wiring sourced from only the best suppliers to meet the challenging conditions that our equipment need to face day in day out. Replacing broken or damaged harnesses and cables with EFFER original parts will ensure maximum uptime for the equipment.
