

Electric winch load capacity 800 kg

Product code: 0000000363 | **Category:** Hoist, winch and ratchet

Product images

Short description

The electric winch with load capacity 800 kg is made of aluminum, is resistant and compact.

Technical specifications:

- Lifting height: 30 m
- Lifting speed: 9 m/min
- Capacity: 800 kg
- Dimensions 54x27x34 cm
- Rope diameter: 6 mm
- Input power: 1.2 kW
- Voltage: 230V
- Protection grade: IP54

We deliver all over Italy and Europe!

Technical specifications

Weight	31 kg
Dimensions	Length: 54 cm Width: 27 cm Height: 34 cm

Product description

Electric winch load capacity 800 kg

Our electric winch with load capacity 800 kg consists of an aluminum box and is therefore handy, easy to transport, but at the same time very robust and compact. The winch is equipped with a low consumption, yet very powerful electric motor. Despite the power of its engine, the electric winch remains quiet so the surrounding environment is not disturbed. It can be used for a variety of applications, from simple household activities to large workshops and production lines.

Our electric winch is provided with a long-lasting steel cable which is very resistant to heavy loads and with a high-quality, anti-slip hook that firmly holds the goods during various movements. It also includes a remote control that allows the rope to be moved very easily and with the utmost precision.

The electric winch has a powerful engine with a voltage of 230 V. Its additional value lies in the lifting height of up to 30 meters.

Technical specifications:

- Lifting height: 30 m
- Lifting speed: 9 m/min
- Capacity: 800 kg
- Dimensions 54x27x34 cm
- Rope diameter: 6 mm
- Input power: 1.2 kW
- Voltage: 230V
- Protection grade: IP54
