Technical specifications

Weight	7.60 kg
Dimensions	Length: 50 cm Width: 50 cm Height: 8 cm
Colore	Nero
Portata	10 ton
Materiale	HDPE riciclato multicolor ad alta resistenza
Inclinazione	7,5°

Product description

The inclined outrigger pads for crane 500x500x80 mm is designed to provide stable and secure support for crane and lifting equipment stabilisers, even on uneven ground or natural slopes. Made from recycled HDPE with a non-slip base, it is a sturdy, durable crane stabiliser plate that is ideal for construction and industrial sites.

Technical features

- Dimensions: 500x500x80 mm.
- Central milled area 400x400 mm for precise positioning of the stabiliser feet.
- Integrated 7.5° incline to compensate for natural ground slopes.
- Material: high-strength, multicoloured recycled HDPE.
- Low weight (10.5 kg) for easy handling.
- Square shape for even load distribution.
- Colour: multicoloured polyethylene.
- Load capacity: 10t.

Advantages and features

- Improves crane stability on uneven or sloping ground.
- Reduces the risk of tipping and displacement of stabilisers.
- Integrated rope handle for quick and easy positioning.
- Ideal as a crane platform, stabiliser plate and support base on construction and industrial sites.
- Compatible with the 400x400x80 mm inclined platform, which is inserted into the central milled section of the 50x50x8cm plate to create a stable and secure modular system.
