

Inclined outrigger pads kit for crane

Product code: KITPED_ICL | Category: Outrigger pads

Product images

Short description

Kit consisting of inclined outrigger pads 400×400×80 mm and 500×500×80 mm.

- Ideal for stabilising cranes and machinery on uneven ground.
- Kit dimensions: TOP 1 outrigger pads 400×400×80 mm + BASE 1 outrigger pads 500×500×80 mm
- Modular system: the 400×400 fits into the milled section of the 500×500.
- Combined inclination up to 15° to compensate for ground slopes.
- Sturdy recycled HDPE materials with non-slip base.
- Central milled section for precise positioning of the stabiliser foot.
- Greater safety, stability and load distribution.
- Rope handles for easy transport and positioning.

Technical specifications

Weight	18.1 kg
Dimensions	Length: 50 cm Width: 50 cm Height: 16 cm

Product description

Inclined outrigger pads kit for crane 400×400×80 mm + 500×500×80 mm

Our kit combines the two models 400×400×80 mm and 500×500×80 mm to provide an extremely stable, versatile and safe solution for supporting stabilisers on uneven ground. This modular system is designed to compensate for ground slopes and optimise the load distribution of cranes and lifting equipment, reducing the risk of overturning and improving operational safety.

The 500×500×80 mm outrigger pads acts as the main base with a large support surface and central milling, into which the 400×400×80 mm pads fits perfectly. The combination of the two bearings allows for greater total inclination and superior stability, while maintaining precise positioning of the stabiliser foot.

Technical features

- Kit dimensions: TOP 1 outrigger pads 400×400×80 mm + BASE 1 outrigger pads 500×500×80 mm
- Combined inclination up to 15°
- Central milling for stable positioning of the stabiliser foot
- Material: high-strength recycled HDPE
- Rope handles for easy handling

Kit advantages

- Effectively compensates for slopes and uneven ground
- Improves crane stability and safety
- Modular system: the platforms fit together perfectly
- Reduces the risk of subsidence, slipping and damage to the ground
- Practical, lightweight and ideal for construction sites, industrial sites and lifting operations

Invest in the safety and efficiency of your lifting operations with the inclined outrigger pads kit for crane.

Buy today and take your lifting activities to new levels of performance and reliability.
