Portata	45 ton
Materiale	Polietilene PE H.D.

Product description

Outrigger pads for cranes 80x80

Soltecshop offers a wide range of crane outrigger pads which are essential accessories for the safety of the crane itself, the crane operator and his work.

The outrigger pads 80x80 are made of high-resistance polyethylene PE H.D. 1000, capable of withstanding significant shocks.

They are suitable for hydraulic cranes, crane trucks and aerial work platforms.

Their design allows them to be used on both sides, either on the side with the circular recess or on the smooth side. This aspect is very beneficial to the operator, as he can use them for more machines.

Among the pads categories offered are those with **dimensions 800x800 mm and a thickness of 60 mm**, which have a **load capacity of 40 tonnes** per stabiliser leg.
