### Product description

Discover our set of 4 outrigger pads (300x300x40 mm), the ideal solution for those seeking safety, stability, and cost savings in a single purchase. Made from durable materials and designed to provide maximum support during lifting operations, these pads are essential for protecting the ground and improving the crane's stability on any type of surface.

#### Why choose the set of 4 outrigger pads (300x300x40 mm)?

Buying this complete set is a smart choice: compared to purchasing items separately, you save time and money while getting a higher-quality product at a better price. The package is specifically designed for professional crane users who need a ready-to-use, safe, and efficient solution.

Features:

- Durable construction: Each pad is made from durable materials designed to withstand heavy loads without warping.
- Optimized dimensions: designed to ensure maximum stability, even in challenging working conditions.
- Easy to transport: equipped with handles or lifting holes, they are practical to handle.
- Compatible with all cranes: the universal design makes them perfect for various models and brands.
- Safe to use: the non-slip surface helps prevent accidental movement.

Benefits of buying in a set:

- Immediate savings: lower price compared to buying individually.
- Optimized shipping: packaging designed to reduce costs and delivery times.

Don't miss the chance to make your work safer and more professional with this set of 4 outrigger pads. Trust in quality, choose convenience.

#### Why choose a Soltec outrigger pads?

Made of high-density polyethylene (HDPE), the Soltec outrigger pads are designed to offer exceptional strength and durability, even under the most demanding working conditions. Perfect for any type of terrain, from compact asphalt to the most uneven ground, the pads adapt easily, providing stability and safety everywhere. At Soltec, safety is never an option. Every platform is designed to ensure maximum protection during use, minimizing operational risks. Manufactured in accordance with current European standards, every Soltec platform is tested and certified to ensure optimal performance over time. A reliable product, designed for professionals.

Choose [Soltec](#) and work in complete safety. Our platforms are synonymous with quality, durability, and peace of mind. A choice you can count on!
