

Wire rope hoist

Product code: TX000 | **Category:** Hoist, winch and ratchet

Product images

Short description

Our wire rope hoist is a popular device used in sectors such as agriculture, by law enforcement and similar. Made of steel, it is impact resistant and complies with all safety standards.

Different models are available, varying in load capacity and weight:

- 0.8 t
- 1.6 t
- 3.2 t
- 5.4 t

We ship all over Europe!

For further information please call: +39 0735 702346

Technical specifications

Weight	6 kg
Portata	0,8 ton, 1,6 ton, 3,2 ton, 5,4 ton

Product variations

Variation name	Variation values	Variation SKU
Wire rope hoist - 0,8 ton	Load capacity: 0,8 ton	0000000509
Wire rope hoist - 1,6 ton	Load capacity: 1,6 ton	0000000498
Wire rope hoist - 3,2 ton	Load capacity: 3,2 ton	0000000501
Wire rope hoist - 5,4 ton	Load capacity: 5,4 ton	0000000515

Product description

Wire rope hoist

Our wire rope hoist is a very particular lifting machine used in niche sectors such as agriculture, off-road vehicles or by law enforcement agencies. As such, it finds its best application in cases where there is a need to move trees, machinery, logs or similar objects. Since it is used in situations that are therefore potentially dangerous, it is made of a very strong steel alloy and undergoes a special anti-corrosion treatment during production. This treatment ensures that this hoist is weather-resistant and long-lasting.

The wire rope hoist consists of an aluminium casing with a steel mechanism inside. Its equipment includes 2 levers positioned above the casing. The former allows the load to be lifted, the latter allows the load to be released. A third, smaller lever serves to ensure that the wire rope is caught by the hoist. Thanks to the functioning described, a single operator can drive this tool and handle very heavy loads. The equipment also includes an anti-overload system, which clearly prevents the user from taking great risks during operations. With the telescopic operating handle, the customer significantly reduces his fatigue during use. Finally, along with the wire rope, there is an anti-slip hook that holds the goods securely and prevents them from falling to the ground.

We offer different models, varying in load capacity and weight:

- 0.8 t
- 1.6 t
- 3.2 t
- 5.4 t
